

MDESIGN for Mathcad - Licensing conditions

With a single-user license of MDESIGN Mathcad the customer acquires the right of unlimited use of the worksheets and the database on a desktop PC. A multi-user license permits the use of MDESIGN Mathcad sheets on as many computers as the license agreement allows.

The user is allowed to copy parts of the worksheets and use them in other applications. Copying and deploying complete worksheets, the database or database content is not allowed, neither for private use nor in a company or a University.

Purchase gives the customer the right to call the hotline up to three times. Number of e-mails to the hotline is not restricted. Answers are limited to technical questions, installation problems and content development. Questions concerning standards and design applications can be asked in writing but there is no obligation for TEDATA to answer these queries.

MDESIGN for Mathcad - Licensing Procedure

MDESIGN for Mathcad is available as a single user or multi-user license. Licenses can be obtained by downloading from the internet. The customer purchases the software in the online shop. After the payment he will get access to the software download and the activation code.
